

Here's what 14 AVA folks (and one non-AVA friend) found at Tuttle Marsh on June 7, 2017 from approximately 7:30pm - 9:00 pm

Trumpeter Swan (3)	Red winged Blackbirds
Tree Swallows	Black-billed cuckoo (2)
Song Sparrow	Wood Duck (2)
Green Heron	Great Blue Heron
Common Raven (4)	Hermit Thrush
Northern Flicker	Swamp Sparrow
Swamp Sparrow	Double Crested Cormorant (juv.)
Marsh Wren	Red-eyed Vireo
American Robin	American Bittern (2)
Bald Eagle (2)	Common Yellow- throat Warbler
Osprey (3) one on nest	Sandhill Crane (5)
Sora (calling only)	Pie-billed Grebe
Greater Fly -catcher	Alder Flycatcher
Belted Kingfisher	Baltimore Oriole
Brown Thrasher	Eastern Kingbird
Virginia Rail - one seen and more heard	

31 species, not all seen by all participants... Not in taxonomic order, or even order seen, I need e bird!

Also, a stunning sunset about 9:30 and a gorgeous moon about 10:00 when we arrived home.

Sue and Larry

PS There was also one mushrat, but no turtles!
