MEETING SUMMARY/DISCUSSION

At approximately 3:06 pm, the Au Sable Valley gathered for a monthly meeting. President Bill Roth welcomed members and guests. We had a large group, enough to establish a quorum.

BIRD SIGHTINGS: Hooded Mergansers, lots of winter ducks, Spotted Towhee, Coopers Hawk, Lots of Trumpeters seen in many locations, Flocks of Wood ducks in Oak Trees, Blue Phase Snow Goose, Horned Larks, White Crowned Sparrows, Lapland Longspurs, Snow Buntings.

EM'S BIRD LESSON OF THE DAY: House finches rub tube feeders to open their eyes when they get eye disease. If you see any eye disease, then take down your feeder to help prevent spreading. Other birds do not rub their eyes to be able to see. The disease was from domestic poultry.

In addition, Bird Watcher's Digest was re-done as Bird Magazine. Em had copies of old editions for anyone that wanted to take them.
